Two Injured in Auto Accident.

Two persons were painfully injured and three others had narrow escapes as the result of an automobile accident which occurred Friday night while a party composed of Albert Lyons, John J. Williams, Bennie Weissberg, Wm. Giltner and Frank Goodman, a member of the Paris Base Ball Club, were returning from the base ball game at Winchester.

The accident occurred about two miles from Clintonville when the party was enroute to Lexington from Winchester after the game. Wm. Giltner, who was driving the machine, was unfamiliar with the road and at a sharp curve the machine crashed into a tree at the side of the road.

The occupants of the machine were thrown out by the force of the impact and it is a miracle that all escaped without serious injury, as the car was being driven at a very rapid rate of speed. Lyons and Williams were the worst injured of the party, the former sustained a fracture of two ribs and was bruised about the head and body, while the latter suffered a broken collar bone and was badly cut about the face and head.

The injured men were attended by Dr. Wm. Kenney, who went to their aid in an auto, and returned with them to Paris.

Another accident which came near resulting seriously occurred a short time after the news of the first accident was received here. While Mrs. Wm. Giltner, Miss Effie Paton and Dr. W. C. Ussery were enroute to the scene in an automobile driven by George Bedford, a few miles from Paris, and at a sharp curve in the road, the brake of the machine refused to work with the result the auto ran into a stone fence. Fortunately none of the occupants were injured and the machine was damaged but little.

Claim Holders Receive Their Money.

Checks to 10,500 claim holders against the defunct Southern Mutual Investment and American Reserve Bond companies were sent out Friday by J. C. Rogers, receiver of the concerns. The amount represented by the checks totals \$90,000. This is the second dividend paid to investors. It is not known when the next and final payment will be made, but it is said that claimholders will receive in all about 25 per cent of their dues.

The claimants live in practically every state in the Union. The companies failed about ten years ago for more than \$1,000,000.

A number of claimholders of the concern were residents of this city.

Echo Issues Industrial Edition.

The Mountain Echo, of London, came to us Saturday in the form of an industrial edition, compiled by Dorch Campbell, of Middlesboro. The review is an excellent publication, setting forth the developments of the coal fields in Laurel county. The edition is one of exceptional beauty typographically and reflects credit upon the enterprising publisher of the Echo.

Bourbon County Crop Conditions

Widespread is the distress occasioned by the protracted drought and farmers have looked for relief in the form of a downpour of rain.

Each day the corn crop is nearer a condition of absolute failure, and the loss in the county will run up into the thousands of dollars.

The tobacco crop will be the lightest in years, in fact, a smaller yield than that produced during the dry year of 1887, when tobacco sold at an average price of from 15 to 20 cents per pound, is indicated.

Pastures are without the semblance of a life and the last blade of green has perished.

Pools and springs are getting low and water for both man and beast is sought after.

The usual crop of rag weed is being held in check by the drought and the failure of the crop is indicated.

Many farmers who staked the result of the year's work upon returns from crops of corn and tobacco see nothing in sight but failure.

Live stock are being sold and rushed to market, as the feed problem is such that it will not pay to carry them through the coming winter.

Farmers who stand ready to sow stubble fields in clover, cow peas, alfalfa, rye and late corn as roughage crops to take the place of hay for winter use and fall grazing are but waiting for a rain, the ground is too hard and dry to plow.

Feed of all kinds for live stock is going to be higher than for many years and already old hay is being imported into the county from the West.

Farmers who have a supply of old corn won't sell at the present market prices, high as these are, and are going to hold for the advance that must come with the failure of the new crop, which now seems inevitable.

WHAT CURES ECZEMA?

We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D., can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there are many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription.

Because—We know that it gives instant relief to that torturing itch.
Because—D. D. D. starts the cure at the foundation of the trouble.
Because—it cleanses, soothes and heals the skin.

Because—it enables Nature to repair the ravages of the disease.

Because—The records of ten years of complete cures of thousands of the most serious cases show that D. D. D. is today recognized as the absolutely reliable Eczema cure.

Drop into our store today, just to talk over your case with us.

LIQUID CURES ECZEMA WHERE SALVE FAILS

In regard to skin diseases medical authorities are now agreed on this:

Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid.

WASH THE GERMS OUT. A simple wash: A compound of Oil of Wintergreen, Thymol, and other ingredients as combined in the D. D. D. Prescription, penetrates to the disease germs and destroys it, then soothes and heals the skin as nothing else has ever done.

A 25-cent trial bottle will start the cure, and give you instant relief.

Funny How They Fall for It.

J. W. Glenn, an operator of slot machines, pool room tout and confidence man, well remembered by the sporting element of Paris, for a neat scheme pulled off here a few years ago, when the local sports were victimized to the extent of a couple of thousand dollars or a "sure thing" put over the same thing on a Washington, D. C., man a few weeks ago. The story was told in a dispatch from Washington to the Cincinnati Enquirer, is as follows:

Enticed into attempting to get rich quickly by two clever confidence men and drawn into their clutches by the seeming certainty of making "easy money," J. T. Henshaw, of this city, a member of the firm of Henshaw & Co., was swindled out of \$2,035 while on a recent trip to Niagara Falls, N. Y. So well did the swindlers play their game that it was only today that Mr. Henshaw discovered his loss and reported the affair. The game was the old familiar poolroom scheme.

Mr. Henshaw tells the story as follows:

"While at Niagara Falls I met a man who gave the name of J. W. Glenn. We took a trip around the gorge and going to a hotel at the end we sat down to rest. We had not been there long when a man sat down near us and began counting a bunch of money, some of it being thousand-dollar bills.

"Glenn recognized the man, calling him Mr. Bentley. Bentley said he was employed at a salary of fifty dollars a day and that he had telegraphic information each day from men who controlled the horses at the track and that he placed his bets with absolute certainty. Taking us into the hotel he showed us a little room where the side walls were chalked up with the names of horses. Eight or ten men were in the room. I looked around and Bentley and myself went back to the room upstairs. Bentley put a thousand dollar bill in my hand and said, 'take this and put it up on Floyd Wells.'

"I went down into the room and passed Bentley's \$1,000 into the window, together with \$2 of my own. In about two minutes Floyd Wells was announced the winner, and I drew down \$2,000.

"In a few minutes Bentley sent me down with another thousand dollars to put upon Bright Star. This was also a winner and I pulled down \$2,008, leaving me \$4 of mine on it.

"Bentley asked how much money we had. Glenn had \$40 and I confessed to \$35. This we put up. Bentley then wanted to know what banks we used. I gave him the name of one bank where I had no money. Glenn said he did business with the First National of Indianapolis. Bentley then began to write out checks. I refused to sign them, but Bentley did, and taking the phony checks he went down and made the bet himself. He then gave me the ticket and told me to go down and cash in on it. The amount put up was \$5,000 in worthless checks and \$75 in money.

"I gave the ticket into the bookmaker and he had counted out \$8,000 when the manager came in and said, 'We will have to hold this bet until we find out if these checks are good.'

"With this we went outside and confessed the situation. Finally we got the worthless checks, destroyed them and when Glenn and myself drew sight drafts in our banks for the amount of the checks, which we turned over to the bookmaker. Our drafts were pronounced O. K. within a day or two and we got the amount of our bet, \$10,150.

"I remained outside. In a little while Bentley came to me, and giving me a \$1,000 bill and two \$500 bills, told me to bet the \$2,000 on Dr. Watson for place. I gave the ticket to Bentley.

"Bentley jumped up with the exclamation, 'What have you fellows done. I told you to bet Dr. Watson for place and you have bet him as a winner.'

"They went to the bookmaker and tried to get him to charge the ticket to place, but the race had been run. Glenn volunteered to take all the blame, as he knew that I was a poor hand at the game and said he would go home and get \$5,000 and make good. With this we arranged our parting to meet again in Philadelphia.

"I was given \$10 and Glenn was given \$20. I went to Philadelphia, and after staying there three days, hearing nothing from Glenn, I supposed he had concluded to pocket his loss and drop out, so I came home. I wrote to Glenn but the letter was returned. Then I realized I had been done out of \$2,035."

Poured Bullets into Pleading Wife.

John Pack, a Lewis farmer, shot his wife and then turned the revolver upon himself.

The couple have been married a year. Mrs. Pack left home recently, alleging ill treatment. Pack sent for her repeatedly. She finally went back, pleading for better treatment, whereupon he took her by the hand and held her tightly as he poured the bullets into her body. He saved one for himself, and fired it into his head as his wife sank to the floor.

Former Parisian Gives Views as Alienist.

Many recent destructive fires in Chicago, under investigation by the police, are believed to be of incendiary origin. In many of the conflagrations scores of horses were burned to death and officials are working upon the theory that the perpetrator is a person laboring under a mental perversion, hitherto unknown to scientists.

This person is believed to be a girl, whose desire to see animals suffer prompted the acts which recently caused such immense losses in Chicago. It is the belief that this mania was responsible, and that there were no causes for revenge, nor robbery the motive.

Dr. John Steele Sweeney, says the Chicago Daily Journal, resident physician of the Palmer house, who has studied extensively along this line, has given valuable information on the subject.

"The human mind can never have a definite conception of what limits the human mind can go to," he said. "There is a limit to everything known but man's mind. That is more infinite even than space. Science has calculated the extent of 'infinite' space, but there is nothing that will ever lead beyond or even to the limits of mind."

In explaining pyromania and other perversions of the human intellect, such as are held responsible for recent incendiarism in Chicago, he said:

"Impulsive insanity is characterized by the development of morbid tendencies and impulses which either dominate over volition continually or in recurring paroxysms.

"These acts, which appear without motive, are performed because of an irresistible impulse. The impulses do not arise as a result of a conscious plan, but appear suddenly, are quickly executed, and often quite indefinite, thereby causing the actions to appear unpremeditated, purposeless and even absurd. In case the act is serious or dangerous its accomplishment may be preceded by a conscious struggle. But yet, the worst acts are often performed without delay, and as a matter of course. Neither the regret that follows nor the fear for the results suffices to suppress the recurrence of similar impulses.

"The impulse to set fire is exhibited especially by young girls. Sometimes the morbid pleasure of seeing things burn and at hearing the crackle of things burning dates from early childhood. Morbid impulses to destroy and kill are other instances. There are young women who show a morbid impulse to beat little children entrusted to their care.

"One should not confound the relapsing of criminals with the regular repetition of similar criminal acts in these patients. The criminal sets fire, kills and steals, but he does it from selfish motives and for some definite purpose, perhaps to do someone injury. While the person suffering from impulsive insanity such as pyromania is forced by the dominating impulse to do the deed against his or her will. Frequently the patient has a feeling that the action is inconsistent, unnatural, morbid.

"In impulsive insanity there is apt to be associated with the idea of the morbid act a feeling of desire and eagerness for its performance and the patients cannot remain quiet until it is done. The performance of the act is immediately followed by a feeling of relief, while failure brings disappointment."

Dr. Sweeney has made a special study of incendiary fires in Chicago. He classes by themselves the ones in which horses were burned and his investigation, he says, convinces him that the acts were those of insane young women.

Dr. Sweeney was formerly of Paris, and for a number of years has been physician at the Palmer house. He has made quite a reputation as a physician and the interest he has taken in this matter and the valuable assistance rendered is the talk of Chicago.

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.

AEROPLANE FLIGHTS BY BIRD MEN AT LEXINGTON FAIR

Flights Will Begin on Tuesday and Several Will be Made
by J. A. D. McCurdy Each Day Over Lexington

Aeroplane Flight of J. A. D. McCurdy Over the Rocky Mountains in Colorado.

Outstanding in importance among the amusement features arranged for the big Blue Grass fair, which will be held at Lexington the week of August 7th to 12th, are the daily aeroplane flights to be given by the world famous aviator, Mr. J. A. D. McCurdy.

No other modern science is the subject of so much interest to-day as the effort to perfect aerial navigation. Among those engaged in this work, Mr. McCurdy holds a foremost place. The feats which he has already accomplished have given him a reputation that is not confined to the American continent, but extends throughout the world. A nephew of Dr. Alexander Graham Bell, inventor of the Bell Telephone, Mr. McCurdy has been placed all his life in the closest touch with foremost scientific investigation, and his work with heavier-than-air machines has done much for the development of the science of navigation.

Perhaps best known among his accomplishments along this line is the flight made last winter from Tampa to Havana. It was the longest water flight in the history of aviation and proved beyond peradventure the absolute practicability of the aeroplane. In addition Mr. McCurdy was the first man to send a wireless message from an aeroplane, and he has made numerous other experiments and flights that have not only been spectacular, but have been of large service in the advancement of the science to which he has devoted his life.

Formerly connected with the Glenn H. Curtiss Co., Mr. McCurdy has now a powerful organization of his own and is building his own machine. He is using the world famous Gnome motor, which holds all records in aviation for distance, duration, speed and altitude. The speed of the new McCurdy machine, which will be shown to the American people for the first time at the Blue Grass fair, is equal to that of any of the foreign monoplanes. With it McCurdy can easily attain seventy-five miles an hour. With such a machine he will give demonstrations at the Blue Grass fair that will be not only thrilling to the spectator, but of very great educational value as well.

Beginning Tuesday, August 8th, the second day of the fair, Mr. McCurdy will make several flights each day. He will attain an altitude of more than a mile and will remain in the air from thirty to forty minutes. On August 8th he will also make a flight from the grounds of the Blue Grass Fair association in Lexington to Winchester, the county seat of Clark county, eighteen miles distant. There he will alight for a few minutes to carry a communication from the officials of the Blue Grass fair to the mayor of Winchester, and, when an answer is received, will come immediately back to the Blue Grass fair grounds. The round trip, including the stop at Winchester, will be made in less than an hour and a half. This trip will not only prove the speed of the McCurdy machine, but it will also show the practical use to which modern air craft of the best type can be put.

The management of the Blue Grass fair anticipates that these aeroplane flights alone will be considered by the people of Central Kentucky well worth the price of admission and will draw to the grounds record-breaking crowds. The flights will be arranged at such hours throughout the day that they can be witnessed by all. Those who come from a distance and are compelled to take early afternoon trains will have the opportunity to see these flights before being compelled to leave.

The fastest and most powerful of all American aeroplanes directed by the most skillful of American aviators is the attraction that will be offered during the week of the Blue Grass fair, August 7th to 12th.

CARNIVAL FEATURES

Splendid List of Shows Has Been Secured For the Blue Grass Fair.

A splendid list of shows, carnival features and riding devices has been arranged for the big Blue Grass fair at Lexington, the week of August 7th to 12th. All of these are furnished by Mr. Herbert A. Kline, of Flint, Mich. and are under his personal direction and management. No other man in the country today has such a reputation or standing along his own particular line as has Mr. Kline. He knows what the people want and he always gives it to them. The fact that year after year he has gone back to the great state fairs of the north and west is the surest proof of the manner in which he satisfies his patrons.

Mr. Kline has this year not only the best aggregation of shows which he has ever managed, but the best that were ever put together on one ground. After the close of the big Winnipeg exposition at Winnipeg, Canada, on July 22nd, he goes to the North Dakota State fair for the week of July 24th and then uses the intervening week to ship to Lexington so as to be ready to open at the Blue Grass fair on Monday, August 7th. Due to a strike on the Grand Trunk railroad a number of Mr. Kline's shows, which were to appear at the Blue Grass fair last year, did not reach Lexington. So this year he is taking every precaution to see that ample time is allowed for shipment and to provide against any possible contingency that would prevent his having here his full aggregation.

There are some eighteen shows and riding devices in the lot which Kline brings. Among them may be mentioned the Trained Wild Animal show, the Indian Village, the Ostrich Farm, the Flea Circus, the Dog and Monkey hotel, the Diving Girls, the Zoo, the Perseverance, Bonita the educated horse, and various others of equal merit.

These shows will be on the Blue Grass fair grounds throughout the week of the fair. All of them are clean, moral, and entirely free from objectionable features. Any lady or any child will be safe in visiting them unattended. They will prove one of the interesting amusement features of the fair.

FARMS EXHIBIT

WILL ATTRACT UNUSUAL INTEREST FROM THE STANDPOINT OF THE BLUE GRASS FARMER.

Individual Farm Exhibit Will Attract Best Possible Display of Individual Products Shown on Farms in Central Kentucky.

Unusual interest will attach to the Blue Grass fair this year from the standpoint of the farmer. For several seasons past there has been utilized as a special feature in the prize list of the fair what has been known as an individual farms exhibit. The object of this exhibit is to secure the best possible display of products grown on different individual farms throughout Central Kentucky. The result has been a manifestation of constantly greater interest and this year there is every reason to believe that a very large number of farmers will take advantage of the opportunity afforded them by the fair to show how many different things and in what proportion of prodigality can be grown on a Central Kentucky farm. Prizes aggregating \$100 are given for these different exhibits and in addition such articles as wheat, oats and blue grass seed, which may be included in the general farm exhibit, are also eligible for competition in exclusive classes devoted to them with liberal premiums offered as reward.

To this individual farms exhibit will be devoted a large part of the first floor of Floral hall. In connection with it also there will appear a display gotten up by the Kentucky Experiment station, which, while not coming into competition in any sense, will prove of large educational value and real service to the farmers of Kentucky.

Saved by Beer Barrels.

If Felix Madell, a five-year-old patient in a New York hospital, lives he can thank a pyramid of beer barrels in the rear yard of his tenement house home. He fell five stories from the roof last night while playing leapfrog and struck the apex of the beer barrel pyramid. The barrels rolled away under him, breaking his fall, and he slid down gradually.

Shortest Will on Record.

The shortest will ever offered for probate in Warren county, and probably in the State, came before Judge Denhardt, at Bowling Green, recently. It is written on a small scrap of paper possibly 2x4 inches in size, and read as follows: "I want Eliza to have all I have on this earth." (Signed) Fannie Johns.

The will proper contains just twelve words. It is written in the handwriting of the deceased, and every lawyer at the bar admits that its wording is so simple that it would be impossible to break it had contest arisen over the probating. The estate consists of a life interest in some valuable property in Bowling Green, and the approximate value of the estate will be to the sister of the deceased is \$5,000.

Falls Victim to Thieves.

S. W. Pends, of Coal City, Ala., has a justifiable grievance. Two thieves stole his health for twelve years. They were a liver and kidney trouble. Then Dr. King's New Life Pills throttled them. He's well now. Unrivalled for constipation, malaria, headache, dyspepsia. 25c at Oberdorfer's.

The Strenuous Modern Sunday. Sunday has ceased to be a day of rest. To many people it is the most strenuous day of the week. Skating, bridge, golf, social engagements claim the attention. There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it to be a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Mustache Makes for Health.

Dr. Paul Kruger, a well-known physician of Vienna, affirms that the mustache has a distinct value for the health. He believes that its utility lies in protecting the nose against the invasion of dust and bacteria. Recording 500 cases of severe headache and throat and nose trouble among his men patients, he found that 420 of them had their upper lip clean shaven.

ALL MY PIMPLES GONE

Girl Tells How a Blotchy Skin Was Cleansed By a Simple Wash.

"I was ashamed of my face," writes Miss Minnie Pickard of Altamahaw, N. C. "It was all full of pimples and scars, but after using D. D. D. Prescription I can say that now there is no sign of that Eczema, and that was three years ago."

D. D. D. has become so famous as a cure and instant relief in Eczema and all other serious skin diseases, that its value is sometimes overlooked in clearing up rash, pimples, blackheads, and all other minor forms of skin impurities.

The fact is, that while D. D. D. is so penetrating that it strikes to the very root of Eczema or any other serious trouble, the soothing Oil of Wintergreen, Thymol and other ingredients are so carefully compounded there is no wash for the skin made that can compare with this great household remedy for every kind of skin trouble.

D. D. D. is pleasant to use, perfectly harmless to the most delicate skin, and absolutely reliable. A 25-cent bottle will give you positive proof of the wonderful effectiveness of this great remedy.

Suffer!

We had a rebuff up at Natural Bridge Thursday, says Editor Perry in the Winchester Sun-Sentinel. A very old lady was near the pavilion, but was receiving no attention. As is our custom in such cases we extended our hand with a view to introduction. She very coolly folded her arms and with a withering look, said: "I do not know you sir, I am from Virginia." We wilted.

by a cure-defying trouble that baffled doctor, and resisted all remedies he tried, John W. Modders, of Moddersville, Mich., seemed doomed. He had to sell his farm and give up work. His neighbors said, "he can't live much longer." "Whatever I ate distressed me," he wrote, "till I tried Electric Bitters, which worked wonders for me that I can now eat things I could not take for years. It's surely a grand remedy for stomach trouble." Just as good for the liver and kidneys. Every bottle guaranteed. Only 50c at Oberdorfer's.

Age of Fishes.

Until within recent years there had been ascertained no trustworthy way of finding out the age of fish. It has been shown that mere size does not indicate age. Reibisch, Heincke and others have discovered that many of the bones, scales and otoliths of fishes have annual age rings, resembling those in tree trunks.

Now I weigh 187 pounds and have been well and strong for years." Quick, safe, sure, it's the best remedy on earth for colds, coughs, lagrippe, asthma, croup, and all throat and lung troubles. 50c and \$1.00. Trial bottle free. Guaranteed by Oberdorfer.

Wonderful Artificial Man.

A Berlin inventor has succeeded, after years of toil, in making an artificial man who can walk, make all movements, speak, sing, laugh and whistle. It is a life-size figure, and so natural an imitation as to be completely deceptive a yard away. "Occultus," as the figure is named, obeys words of command, such as "march" and "halt," and he answers any questions put to him. It is not an illusion or a trick. It is a piece of pure mechanical work.

Paris made it three straight from the Hustlers when they won a ten-inning contest Friday by a score of 6 to 4.

The Hustlers, with Burden on the mound, had the best of the argument until the seventh round, when with one on McKernan clouted for a home run. After this the Bourbonites hit the ball with telling effect. The Hustlers were in the lead by two runs in the eighth, when Paris by putting two over, sewed up the game, winning out in the tenth.

Shears was on the slab for Paris and after the fifth session held his opponents with ease. During the ten rounds he allowed but seven safe drives. The locals fielded well and connected with the ball at opportune times. The score:

Paris.....0 0 0 0 0 2 2 0 2-6
Winchester.....0 0 0 2 1 0 1 0 0-4

Batteries—Paris, Shears and Mayer; Winchester, Burden and McGuire. Errors—Paris 1, Hits—Paris 16, Winchester 7. Earned runs—Paris 6, Winchester 2. Two base hits—Goosetree, Burden. Three base hit—Chapman. Home run—McKernan. First on balls—off Shears 1, off Burden 2. Struck out—by Shears 8, by Burden 2. Double plays—McKernan to Barnett, Callahan to Reed. Time—1:45. With the locals putting up a miserable exhibition of ball playing they were easy victims to the heavy hitting Pioneers in the contest here Saturday afternoon.

The visitors fielded brilliantly and the pitching of Sterling was of such an effective pattern that the Bourbonites could not overcome the strong lead of six runs accumulated in the third session.

George essayed to hurl for Paris but his control was bad and the hurler who had on the last meeting with the Pioneers blanked them in a brilliant game at Richmond, when he allowed only four scattered hits, fell a prey to his opponents and in the third inning was driven from the mound.

His slants were just to the liking of the visitors and the fraction over two innings he presided on the slab there came a veritable deluge of two baggers. After it became evident he could not hold the Pioneers in check and after the game was lost he was sent to the bench and McKernan called Scheneberg to stem the tide. The score:

Richmond.....0 0 6 0 0 1 0 0-7
Paris.....0 0 0 0 1 0 0 0-3

Batteries—Paris, George, Scheneberg and Mayer. Richmond, Sterling and Haley. Hits—Paris 7, Richmond 13. Errors—Paris 5, Richmond 4. Earned runs—Paris 2, Richmond 4. Two base hits—Olson, McKernan, Bramlage, Haines, Walden, Sterling, Harrell, Maxwell. Bases on balls—off Sterling 5, off Scheneberg 1, off George 2. Struck out—by Sterling 3, by George 1, by Scheneberg 4. Double plays—Haley to Olson, Mayer to Kuhlman, Wild pitch—Scheneberg. Hit by pitcher—Kuhlman. Five hits and five runs off Paris in 2-3 innings. Stolen base—Barnett. Sacrifice fly—Olson. Sacrifice hits—Olson, Haley. Time—2:00. Umpire—Haley. Attendance—250.

George did it; showing a reversal of form he pitched the Bourbonites to victory over the Pioneers at White Park Sunday afternoon, and so effective was his work on the slab and so perfect was the support accorded by his helpers that only three hits were on record against him, one of which was of the scratchy order and only one Pioneer touched all four stations.

The Pioneers found George to their liking Saturday afternoon and in one inning he was hammered so unmercifully that McKernan sent him to the bench, but Sunday he "came back" and by superb hurling kept his oppo-

nents continually popping up or rolling easy ones about the infield. The locals put up a brilliant exhibition, quite a contrast to the game of the day previous and no chance, regardless of how difficult, seemed to be handled with ease. The game was the fastest seen at the yard this year and was played in record time for the league this season.

The visitors put up a splendid game and had only two misplays, neither of which would have had any effect on the final result except deprive Paris of one run. Their inability to hit George was the only weakness but in the field they made quite a display of aggres-

siveness. Two of their safeties came in the fourth which netted their lone tally and the slow roll which counted for Baird came in the eighth.

Black tightened up after the first frame and while hits came at intervals they were scattered about and counted for nothing.

Chapman and Maxwell evinced over the outer gardens in fine fashion and pulled down drives in sensational style seldom seen in this company. In the eighth Maxwell took one off his shoe tops from Kyle's bat that had all the earmarks of a safe drive and in the ninth went to the fence to the right of the bull sign, pulling down a long high drive and robbed Haines of a journey around the four stations.

Harrell, Maxwell and Barnett did the bulk of the hitting, each securing two apiece while George surprised himself and the crowd by stinging off a clean one to right. McKernan also had one to his credit which brought the total up to eight.

The locals sewed the game in the first session. Harrell went out on a fly to Haines. McKernan hit to right for a base and reached second on Baird's muff of Olson's throw of Mayer's grounder, both runners being safe. Barnett followed with a drive to right which rounded out of Haines' reach and the runner pulled up on third, scoring when Kuhlman rolled to Whitaker. Maxwell sent a bouncer to Olson for the third out.

The only run scored by the visitors came in the fourth. Olson lead off with a stinging drive to center for two bases and was run down by Kuhlman when Bramlage sent one toward third. Whitaker followed with a two bagger scoring Bramlage. Haines and Haley hit into outs, retiring the side. The score:

Richmond.....0 0 0 1 0 0 0 0-1

Yesterday afternoon the Bourbonites won from the Pioneers by a score of 5 to 3.

Frankfort at Lexington—Frankfort 9, Lexington 1. Winchester at Maysville—Winchester 0, Maysville 3; second game, Winchester 5, Maysville 4.

Lexington Here for Two Games.

The Bourbonites will go to Lexington for a game this afternoon and will meet the Colts on the local lot Wednesday afternoon and Thursday. Great interest is manifested in these games as the result will in all probability decide which club will take the lead in the present pennant race, for a time at least.

Paris and Lexington have been running neck and neck for the past two weeks and while Paris on one or two occasions has forged to the front, they seem to suffer defeat just as the Colts are blessed with the good fortune of adding a game to the won column.

The leadership for the present hinges entirely upon the games between Paris and Lexington this week. An even break would leave the standing in the standing until the clubs meet.

The locals seem determined to trim the Colts all three games and Scheneberg, their desperate opponent of old, will likely be stationed on the firing line in the first contest. Since his return to the Bourbonite fold "Cyclone" Jack has not stacked up against the Colts and is overly anxious for the meeting. Either George or Hauser will find work in one of the games this week.

MATRIMONIAL.

—Mr. Robert Cain, son of Mr. and Mrs. John Cain, of Paris, and Miss Mattie Wingate, daughter of Mr. and Mrs. Henry Wingate, of Frankfort, were quietly married in Lexington on Wednesday, July 19.

The marriage was quite a surprise to the relatives and friends of the young people. They have returned to Paris and are at the home of the groom's parents on Higgins avenue.

A marriage license was issued yesterday to Mr. John T. Faulconer, Jr., and Miss Arabella Taylor.

Killed by Blow With Knucks.

Henry Vise, well known in Fayette county, was struck on the head with brass knucks by Constable John Stivers at Athens Sunday night, and killed. His skull was fractured and his neck was broken by the blow. Stivers was also wounded in the fight, as was Lee White, who took a hard in it. Stivers was stabbed once in the breast, and White received a cut in the back. The cause of the trouble is unknown.

L. & N. Sued for Half Million.

Suit was filed in Frankfort yesterday by Revenue Agent Huntsman for State Auditor James against the L. & N. railroad for omitted franchise taxes for counties and cities amounting to about \$500,000 for four years, 1907, 1908, 1909 and 1910. The petition alleges that the L. & N. in its annual reports to the auditor did not give correct statements as to net earnings and as to its mileage in and out of Kentucky; that 7 per cent more of its mileage is in Kentucky than the reports show and that its net earnings were many millions more than was reported to the auditor. If the claim is upheld in the courts it is stated that each county and city through which the L. & N. runs will receive four times as much franchise tax as they received for the years mentioned.

Warrants Issued For Alleged Trespassers.

An instance which caused the arrest of fifteen men and aroused the good people of the quiet little village of Ruddle Mills to a point of indignation occurred Thursday.

At the instance of Miss May Oliver, a trustee of the Methodist church, South, of Ruddle Mills, warrants were issued in the county court charging trespassing and served upon Clarence Hough, Chas. Hough, Harry Paynter, Chas. Weaver, Noah Moore, James Mahoney, Lindsay Hough, Paul Hanley, Harrison Hough, Lewis Dixon, Chas. Cameron, Thos. Padgett, John Ewalt, Claude and Arthur Linville.

The trouble arose over the alleged trespassing of the above upon the property of S. P. Oliver, which adjoins the cemetery of the Methodist church, while the accused were constructing a fence around the cemetery.

From reports it has been learned the cemetery for some time past has not been enclosed and the stock of the residents of the community has been allowed to roam at large over the graves. A number of people in that community, who had relatives buried there, contributed liberally toward the purchase of material and the men offered their services in constructing the fence.

Oliver, whose property adjoins, is alleged to have allowed his stock to graze in the cemetery, and according to our informant, was one of the chief offenders. With a view of protecting the graves the men set to work Thursday to erect the fence, and Miss Oliver, who observed the move came to Paris made affidavit and swore out warrants against the alleged trespassers. The warrants were served by Deputy Sheriff W. F. Talbott.

The men were arraigned in the county court Friday and the County Attorney declined to prosecute the case. The defendants were represented by Hon. E. M. Dickson, and waiving examining trial were held to the grand jury. Each gave bond for their appearance at the November term.

After their arrest the men continued at their task and completed the fence. Today persons who have relatives and friends buried in the cemetery will meet in Ruddle Mills and clean out the cemetery.

Toney Showed His Class Against Boston.

Harold D. Johnson, in the Record-Herald, says: "Recruit days have ceased to be for 'Big' Fred Toney. Off to his third start in major society, the Blue Grass speed boy yesterday scolded his name among the truly greats, pitching the Cubs to their ninth straight victory. Incidentally the killing made it three in a row from Boston here, 8 to 2. Thus ended the series with 'Toney's' tottering tail-enders.

"Chance, firmly convinced of Toney's class after the mountain boy made his second debut on the Cub grounds recently, named him as a slab choice for this farewell combat. Errors coming at inopportune times robbed Fred of a swell chance to win in a previous battle, but yesterday the champions, playing brilliantly on the defensive and battling like scamps, lightened the burdens of the firing line. Class stuck out all over the lad as he skimmed the nine rounds, granting eight singles, three coming in the first session for a total of two runs. Thereafter the hostiles never had a look-in."

Cooler Weather Expected.

Showers and continued seasonable temperatures will feature the week, according to the Weather Bureau. The weekly forecast issued Sunday says: "The general barometric pressure distribution shown by the international weather chart is such as to indicate that there will be no unseasonable temperatures the coming week in any part of the country except possibly the extreme Southwest and the interior of the South Pacific States. Fairly well distributed precipitation is probable during the week in all districts from the Rocky Mountains eastward to the Atlantic Coast.

"A barometric depression that is over the Northwest will advance slowly eastward and be attended by local showers the first part of the week from the Mississippi Valley eastward. "Another disturbance which promises to be attended by general showers will appear in the Northwest about Wednesday and move eastward, crossing the Central Valleys Thursday or Friday and the Atlantic States at the end of the week. This disturbance will be followed by considerably cooler weather in all the middle and Northern States from the Rocky Mountains to the Atlantic States."

Pedestrians Endangered.

A tire of a transfer wagon operated by T. G. Morris, ran off the wheel Friday afternoon near the corner of Main and Fifth streets. The tire rolled on the sidewalk and narrowly missed several pedestrians, and sending them scurrying to a place of safety. Fortunately no one was injured by the heavy steel and the wagon suffered no other damage.

Advertising State Fair.

Mr. Davis Hutchcraft was in Paris Sunday the guest of his parents, Mr. and Mrs. J. P. Hutchcraft. Mr. Hutchcraft left yesterday morning for Berea in the interest of the State Fair and this week will visit Winchester, Richmond and Cynthiana, interesting the exhibitors of live stock in the many attractive premiums to be offered at the fair this year.

Dies Suddenly of Heart Failure

Miss Dorothy May Brown, aged 19 years, was found dead in bed Thursday morning at the home of her parents, Mr. and Mrs. Samuel Brown, in Dayton, Ky. It was evident life had been extinct for several hours.

Miss Brown had been working as cashier in a five-cent theatre, the position held by her sister, Miss Bessie Brown, who was on a visit to her sister, Mrs. H. J. Grosche, in this city.

The young woman had returned to her home after the closing of the theatre and after sitting on the porch, a short time retired. She was in good spirits and apparently in good health although it was known her heart was affected to some extent, and from this she was a frequent sufferer.

On calling her for breakfast Thursday morning she failed to respond and her mother went to investigate, and found her dead. The coroner rendered a verdict of death due to heart failure.

Miss Brown had frequently visited her sister, Mrs. Grosche, in Paris and had only returned to her home about ten days ago after a protracted stay here.

Must be Destroyed.

It is not generally known that cigar boxes may no longer be sold or given away. Formerly it was lawful to destroy the stamps on the box after it had been emptied, so that no trace of its previous condition of servitude might be known. The government is very tenacious of its rights on the tobacco question, and violators of its laws are severely punished.

Bees' Stings Cause Death of Mules.

James Wright, a farmer, near the Scott-Harrison county line, met with a painful accident while driving a pair of mules in the yard at his home. The mules overturned a bee hive and Wright was frightfully stung. And the mules were so badly stung that they died in a short time. Mr. Wright is believed to be out of danger now.

Growers Considering New Company.

There is a movement on foot to interest growers of burley tobacco in the organization of companies for the manufacture of their product. This movement has grown out of the recent decision of the Supreme Court ordering the dissolution of the American Tobacco Company, and through which tobacco men generally see an encouraging outlook for the establishment of independent factories in the tobacco producing states.

The growers who are foremost in the movement argue with their brothers of the industry that they would realize better returns than if they continue to sell the weed in loose leaf order or in hogheads.

It is not likely that there will be another pool

Denied Petition.

The Fayette Circuit Court Saturday denied the petition of Mrs. Maggie Rogers McClintock for divorce from James D. McClintock, of this city, and the case will now go to the Court of Appeals. Judge Kerr, in a written opinion of considerable length, holds that the grounds of cruel treatment, as alleged, have not been sustained by the testimony, of which there was more than 1,000 typewritten pages. The Court holds out a hope that there will yet be a reconciliation because of their little daughter. Mrs. McClintock is granted the custody of the child pending the appeal.

LAST OF THE YAQUIS.

Passing of a Once Famous Tribe of Mexican Indians.

All the world has heard of the famous Yaqui Indians of the state of Sonora, Mexico. They are for the most part dwellers in the hills, crudely armed with primitive weapons, but terrific fighters who have more than once decisively beaten the soldiers of Mexico.

Peaceable when undisturbed, fully alive to the richness of their mines and the value of their fertile valleys, they sought only to defend that which was theirs from the grasping hands of those who desired their mines and their lands. Like most aborigines, however, they were doomed from the first. What was at the time of Cortes a tribe of 5,000 strong, able to defy the warriors of Montezuma, has dwindled until there are now not more than 500 souls in the valley of the Yaqui river and in the mountain gorges which wall in the source of this stream.

The bulk of the Yaquis have been wiped out in sanguinary wars or taken prisoners and shot, and those for whom no excuse for death could be found have been deported to the fever stricken valleys of Yucatan. The Yaquis as a race are no more, but their passing has been made complete only during the past few years.—Wide World Magazine.

TESTING A PICTURE.

Tissot, the Famous French Painter, and His Critic.

An interesting story is told of Jacques Tissot, the great French painter. While in England he painted a beautiful religious picture and, meeting a countrywoman, asked her opinion of his work. "It's a chef d'œuvre," she replied, giving a remarkably just and detailed appreciation of the various merits of the really splendid painting.

"Are you satisfied?" asked a friend. Tissot answered in the negative. He entirely repainted his picture, working night and day.

When finished he sent again for his fair critic, who pronounced it admirable and remained silently admiring it with smiling ecstacy.

"Are you satisfied?" asked the friend again when the lady had departed. "No," replied the artist, and he set to work for the third time.

When the Parisienne saw the new painting she gazed at it for some moments with evident emotion and then without a word sank softly to her knees and began to pray.

"Are you satisfied now?" whispered the friend, and Tissot said "Yes."—London Saturday Review.

Hannibal's Downfall.

The fate of Hannibal turned upon the result of a promenade. It was after he had crossed the Alps and entered Italy, with winter quarters established at Capua. His residence was one of the best houses in the city, and while walking in the garden he heard a female voice singing not far away. Struck by the tones of the voice, he issued an order that the singer should be brought before him. He was so greatly impressed by her charms that he at once attached her to his household, disposing of the husband by beheading him. Retribution followed closely upon the cowardly perpetration of the outrage. The balance of the winter was devoted to pleasure, discipline and drills were practically abandoned, and with the advent of spring the Carthaginian army was so demoralized by the dissipation of the city that its prestige was lost, and with it came the downfall of Hannibal.

The Sara-Kabbah Fashion.

The Sara-Kabbah people of central Africa adopt the hideous fashion of wearing large wooden disks in the lips, the one in the upper lip about three inches in diameter and that in the lower six inches. "These ornaments," says Mr. Karl W. Kumm in "From Hausaland to Egypt," "restrain the wearers from prolonged conversation. One of the chiefs, when I asked him the reason why they disfigured their women, informed me that their forefathers had developed this habit in order that the women might exercise no attractions for the Moslem slave raiders."

Warning a Serpent.

Down in Bermuda Mark Twain made a speech about snakes to a group of little girls. The speech was great. The only trouble was that the little girls could not appreciate it. It flew over their heads. This was the humorist's conclusion:

"Never warm a serpent in your bosom. It is far easier to warm it by placing it under the pillow of an intimate friend."—Harper's Weekly.

by a cure-defying trouble that baffled doctor, and resisted all remedies he tried, John W. Modders, of Moddersville, Mich., seemed doomed. He had to sell his farm and give up work. His neighbors said, "he can't live much longer." "Whatever I ate distressed me," he wrote, "till I tried Electric Bitters, which worked such wonders for me that I can now eat things I could not take for years. It's surely a grand remedy for stomach trouble." Just as good for the liver and kidneys. Every bottle guaranteed. Only 50c at Oberdorfer's.

Stubborn Case

"I was under the treatment of two doctors," writes Mrs. R. L. Phillips, of Indian Valley, Va., "and they pronounced my case a very stubborn one, of womanly weakness. I was not able to sit up, when I commenced to take Cardui.

I used it about one week, before I saw much change. Now, the severe pain, that had been in my side for years, has gone, and I don't suffer at all. I am feeling better than in a long time, and cannot speak too highly of Cardui."

TAKE The CARDUI Woman's Tonic

if you are one of those ailing women who suffer from any of the troubles so common to women.

Cardui is a builder of womanly strength. Composed of purely vegetable ingredients, it acts quickly on the womanly system, building up womanly strength, toning up the womanly nerves, and regulating the womanly system. Cardui has been in successful use for more than 50 years. Thousands of ladies have written to tell of the benefit they received from it. Try it for your troubles. Begin today.

Has Jeff Davis' Old Seat.

For many years a certain desk in the Senate chamber has been coveted by John Sharp Williams, of Mississippi, and his wish will be realized in taking the seat formerly occupied by Jefferson Davis in the Upper House.

This desk of the one time President of the Confederacy is perhaps of more historic interest than any other in the Senate. It is still disfigured with the bayonet marks made during the war by Union soldiers who attempted to destroy it. Some members, however, insist that many of the scars came from Senator Tillman's pitchfork.

Southern visitors, especially, always insist upon having this desk pointed out to them, and it seems fitting that it should be occupied by a Senator hailing from the commonwealth of Mississippi, Jefferson Davis' home State.

Senator Williams was most heartily welcomed back to active public life by many senators who were formerly his colleagues in the House. From "Affairs at Washington," by Joe Mitchell Chapple, in the National Magazine for August.

The Lengthy Lobbies.

"Why do they call Washington the city of magnificent distances?" "Because," answered the office-seeker, "it is such a long way between what you go after and what you get."

Deeply Religious.

"Deeply religious is he?" "Yes, indeed. If he dies out on Friday, he tells nothing but fish stories."—Puck.

OLD NEWSPAPERS.

Their Usefulness Is Not Gone Just Because You Have Read Them.

The mere fact that moths cannot read is no reason why they should desert newspapers, but they do nevertheless. It isn't exactly the newspaper or its editorial policy that moths dislike. It's the ink used in printing the type that makes the moths stay away. That is why, in the absence of mothproof bags and cedar chests, some housewives pack their furs and woollens away wrapped in newspapers at the end of the winter season and find that is a satisfactory way of preserving them against the ravages of moths. There is nothing better than old newspapers for use under the carpets for the same reason.

Old newspapers have many other uses as well. Wet in water they serve to clean out the stove splendidly. Crushed newspapers are excellent to clean lamp chimneys. They can even be used for an iron holder for an emergency.

Newspapers dipped in lamp oil are useful for cleaning windows. Irons not much soiled can be rubbed on old newspapers and thus made fit for use. Dipped in lamp oil they are splendid to rub the outside of the dishpan. They keep it bright and shining. Torn in shreds, slightly dampened and scattered over the carpet, they keep down dust when sweeping. They clean the sink of its grease and sediment. Nothing is better, for the greasy paper can be at once burned after use.

Many times folded newspapers will serve as a mat to stand hot and blackened pots or kettles on and save soiling the kitchen table. The kitchen stove is kept bright after the cooking of each meal with old papers, and this saves many polishings.

LIFE BUOY AND OAR.

Putting on the One and Supporting Yourself With the Other.

Very few persons know how to get into a life buoy, and, as in this uncertain world one never knows when one may need to make use of a buoy in real earnest, a little practice might prove of great value in an emergency. Now, when the buoy is thrown into the water the temptation is to try to lift it over one's head and shoulders or to dive through it. This, however, is impossible. The correct thing is to grasp the two sides of the buoy with fingers of the hands uppermost, lower yourself under the buoy and come up through the center, then rest your arms upon the sides, and you will be comfortably supported as long as it is necessary.

More often than otherwise, in case of accident, a life buoy is not at hand. In such an event an oar may be used as a substitute. Now, there is some little art in saving oneself by this means, for an average sized scull is not buoyant enough to support a person if grasped as the first impulse would direct.

There is only one way in which the oar will support a human being. It must be ridden like a hobbyhorse. The haft is put between the legs and the blade allowed to project above the surface of the water in front of one. By this means the head is kept well above the water.—Pearson's Magazine.

Feeling For Death.

For a week the self appointed guide to the blind on their daily walks had noticed that the two men who were her special charges felt carefully of the wall on either side of the door of the asylum when passing in and out. Since she was there to lead them, that precaution seemed not at all necessary, and she finally asked their reason for it.

"I am looking for craps on the door," one old man told her. "They don't like to let us know here in the asylum when any one dies for fear of making us feel bad, but they put craps on the door, and by feeling for it when we pass in and out we can find out for ourselves when one of us has gone."—New York Press.

How Fielding Spelled His Name.

The Fieldings are an ancient race, and the Denbigh earldom dates from 1622. By the way, there is a funny story as regards the family name and its spelling. The author of "Tom Jones" was one of the race, and the then Lord Denbigh said to his relative: "Why don't you spell your name 'Fielding' as the rest of us do and not 'Fielding'?"

The writer made answer, "Because I am the first of the family who learned to spell."—London Gentlewoman.

African Giants.

There are many giants in Africa nine feet high. Some of them weigh 300 pounds and are strong enough to kill a panther at one blow. Perhaps you think such big fellows must be clumsy, but they are not. They can run faster than any horse, springing twelve to fourteen feet at a leap. This all sounds like a fairy story, but not so when you hear that these African giants are ostriches.

A Reader Cures His Constipation—Try It Free

Simple way for any family to retain the good health of all its members

The editors of "Health Hints" and "Questions and Answers" have one question that is put to them more often than any other, and which strangely enough, they find the most difficult to answer. That is "How can I cure my constipation?"

Dr. Caldwell, an eminent specialist in diseases of the stomach, liver and bowels, has looked the whole field over, has practised the specialty for forty years and is convinced that the ingredients contained in what is called Dr. Caldwell's Syrup Pepsin has the best claim to attention from constipated people.

Its success in the cure of stubborn constipation has done much to displace the use of salts, waters, strong

cathartics and such things. Syrup Pepsin, by training the stomach and bowel muscles to again do their work naturally, and with its tonic ingredients strengthening the nerves, brings about a lasting cure. Among its strongest supporters are Mr. John Graveline of 98 Milwaukee Ave., Detroit, Mich., and Mr. J. A. Vernon of Oklahoma City. Thousands of others of both sexes have written to Dr. Caldwell telling of gratifying results. It can be obtained at any druggist at fifty cents and one dollar a bottle, or if you want to try it first a free sample bottle can be obtained by writing the doctor.

For the free sample address Dr. W. B. Caldwell, 402 Caldwell building, Monticello, Ill.

WASH THAT ITCH AWAY

It is said that there are certain springs in Europe that give relief and cure to Eczema and other skin diseases. If you knew that by washing in these waters you could be relieved from that awful itch, wouldn't you make every effort to take a trip to Europe at once? Would you not be willing to spend your last cent to find the cure?

But you need not leave home for these distant springs. Relief is right here in your own home town!

A simple wash of Oil of Wintergreen, Thymol and other ingredients as compounded only in D. D. D. Prescription will bring instant relief to that terrible burning itch, and leave the skin as smooth and healthy as that of a child.

If you have not already tried it, get at least a 25-cent bottle today. We assure you of instant relief.

Report of the Head Physician to a Leading New York Hospital on the Cure of Catarrh.

"A few years ago we considered that we were doing well if we cured ten per cent. of the cases of catarrh brought to us, but since the introduction of 'Bloodine' into our hospital we cure more than 90 per cent. of all the cases of Catarrh in its various forms brought to us. Catarrh of the Head, Catarrh of the Eyes, Catarrh of the Bladder and Urethra, Catarrh of the large intestines, Catarrh of the Larynx, Pelvic Catarrh, Catarrh of the Throat, and Catarrh of the Stomach are quickly cured with 'Bloodine.' It builds new tissues, gives new energy, new life, new blood and strength to any part of the body attacked by the Catarrhal germs."

Bloodine is a powerful tonic, nourishing food medicine, composed of valuable tonic stimulants obtained from vegetable drugs. "Bloodine" contains no narcotics or other dangerous drugs which merely deaden pain temporarily, but give no permanent relief or cure the cause of your disease. "Bloodine" is a powerful body builder and blood maker; it is the best remedy known to the medical profession to enrich thin, watery blood and supply new, rich red blood to the whole body.

Hen Becomes Foster Mother of Kittens.

A five-year-old Black Spanish hen owned by Mrs. Taylor Collins, of Franklin county, has adopted six kittens, and cares for them as tenderly as if they were her chicks. The kittens have learned to heed the call of the hen's "cluck," and the old hen calls the kittens and spreads her wings over them to protect them as carefully as if they were her brood.

The affection displayed by the kittens for the hen and by the hen for the kittens is the most unusual because the cat, the mother of the kittens, is living and nurses the kittens as regularly as if they did not have a foster mother.

The old cat seems to understand the situation and displays no jealousy, but, on the contrary, seems to delight in the attention shown her offspring by the hen. The hen does not understand why it is that the kittens, which have acquired the strength, desire to run about the yard, and becomes very uneasy when they are out of her sight.

She left a setting of eggs to adopt the kittens, and has lost interest entirely in chickens of all kinds since the arrival of the kittens.

INITIATING THE CUB.

Stunts the New Boys in Some Banks Have to Face.

Now, when a tyro goes to work in a machine shop he is sent to the tool room for a left handed monkey wrench. A foundry will send the new boy in search of "core holes." A printer's devil is sent to the typefounders with a wheelbarrow for a hair space. Humorists in certain Kansas City banks have a revised code, says the Times of that city.

Here are six things the beginner probably will be required to seek—at drug stores, in stationery shops, even at the county courthouse, where one trustful youth went the other day to inquire diligently for a "speed ball" to assist him in his work:

There is the "speed ball," then, and there is the "check stretcher," presumably used to increase the size of checks that do not conform to the filing cases; the "discount board," supposed to be checked in a manner to facilitate the handling of discounted paper; the "clearing house key," in search for which half a day easily may be consumed, and for the red and black lines that he artistically on the fair pages what could be more appropriate than "striped ink," and lest the ink becomes too thick should not an "ink strainer" be procured?

Ask the new boy.

THE FIRST ASTOR.

A Daring and Resourceful Operator in the Fur Trade.

John Jacob Astor was born in the little village of Waldorf, in Germany, in 1763, just as France at the close of the Seven Years' war was ceding Canada to England. He sailed to our side of the Atlantic in 1783, when George III. in the treaty of Paris was acknowledging our independence and when the merchants of Montreal were establishing the Northwest company.

He became a fur dealer, gradually gained control of the trade south of Lakes Huron and Superior, except that which was in the hands of the Mackinaw company, and won a reputation as a daring and resourceful operator, which made his name known in Montreal, St. Louis, London and Canton.

He had a dozen vessels afloat, representing a capital of \$1,000,000, carrying furs to England and China in 1800, and at the time that the purchase of Louisiana in 1803 pushed our boundary to the Rocky mountains he was the wealthiest and most successful merchant in the United States.—North American Review.

The Man of Leisure.

Most of our rich men work very hard—not always because they want to, but in many instances because they have to. The husbandry of a big estate in itself may be a task for the whole of the time and thought, not of one man, but of several. As a general thing it is fair to say that our only man of leisure is the tramp. The social pariah, the mutineer against the rule of work, is the only one who can be sure of a care free, sybaritic existence, and even he lives in constant danger of rock salt from the farmer's gun or the onslaught of the watchdog around the corner as the hobo knocks at the kitchen door or pauses at the water trough to drink. The poor tramp is certainly a more frequent social phenomenon than the rich one.—Philadelphia Ledger.

The Earl and the Angler.

One of the earls of Minto had a kindly nature. One day a Hawick angler was throwing his line on the river near Minto when a tall gentleman came up to him and inquired what kind of sport he was having. The fisher replied that it was not very good and that he could do better if he were at the other side of the water, adding, "I'll give ye sixpence if ye'll carry me across." The bargain was struck, and the gentleman, getting the angler on his back, carried him through the water to the other side. True to his promise, the angler produced the sixpence, which he proffered to the stranger, who, however, smiled and remarked, "Give it to the first beggar you meet and tell him it is a present from the Earl of Minto."

Why She Worried.

"But, mother, why do you object to my being pleasant to the young men? You can't hope to keep me with you always, you know. One of them will take me away from you some day."

"Take you away from me? Well, if that happens I shall not complain. It is the certainty that none of the young men who have been coming here so far would take you away that has worried both your father and me."—Chicago Record-Herald.

Only Wanted the Chance.

Emperor—I do not care to hear your proposition, sir. Everything that is submitted must first be put through the prime minister. Subject—Nothing would please me better. I wanted to show you the new bayonet which I have invented for army use.—London Answers.

Will'ng, but Cautious.

"Yes, my daughter eloped."

"I suppose you will forgive the young couple?"

"Not until they have located a place to board."—Washington Herald.

Tough Combination.

Probably there is no combination on earth harder to live with than an artistic temperament soused in a bad cold.—Galveston News.

It is always safe to learn even from our enemies, never safe to instruct even our friends.—Colton.

Taft Expected to Veto Wool Bill.

Democratic leaders of the House adopted anything but a conciliatory tone on the wool tariff situation Saturday. Underwood and Harrison of the Ways and Means Committee, and other prominent Democrats expressed themselves in unfriendly terms to the wool tariff compromise with the Senate that would mean raising the rate of the Underwood bill.

Meantime, President Taft is generally credited as fully determined to veto the bill.

The present situation in the House is the key to the entire tariff tangle in Congress. Upon the action of the House early next week rests the possibility of further tariff legislation this session. Speaker Clark expressed confidence that a wool bill will be agreed upon in conference and be signed by the President. Other House leaders, however, adopted a more pessimistic view.

Apparently the desire of certain House leaders is to take no chances of being placed on record as endorsing a partly protective tariff bill. They believe the President will veto any bill and do not want to be on record in favor of any except a straight revenue measure, as the Underwood bill is claimed to be.

Back of this sentiment is the demand of a faction of which Harrison, of New York, is leader, that the raw wool duty shall not be increased above 20 per cent. The general expectation is that the La Follette compromise bill as it passed the Senate will emerge from conference based on 30 per cent ad valorem on raw wool.

There was no change in the Senate situation, the coalition maintaining its strength and the parties to that combination expressing confidence in their ability to put through the revision legislation.

Fight Against High Heels.

A nation-wide movement against the wearing of high-heeled shoes is the plan of Justice W. O. Howard, of the Supreme Court of New York State. In an address at Troy, N. Y., Justice Howard said to an audience of women: "The wearing of high-heeled shoes is as barbarous and as torturing and as destructive of health as Chinese wooden shoes. It is as heathenish and outlandish as wearing rings in the nose or tattooing the face, and it breeds an ungainly and deformed race. The obsolete civilization of China feels proud of another kind. Each results in walking monstrosities. Can I urge you to go out and advocate normal feet, such as God gave. Have you the courage to speak out against this silly fashion—a fashion as destructive as rum, as deadly as opium—or are you to be counted among its devotees."

Where Evil Came In.

Husband (meditating upon the bond bill)—God made woman, but the devil certainly makes the new styles.—Judge.

Death in Roaring Fire.
